Date posted
August 20, 2025

Description
Location: Remote
? **Duration**: 3 Months | Certificate Program
? **Fee**: ₹5,000/month
? **Eligibility**: B.Tech / BCA / MCA / M.Tech / SAP Freshers / Working Professionals
? **Apply Now**: Send CV to hr@techfius.com with Subject: *"ABAP Internship – Aug 2025"*
? **Company**: www.techfius.com

Techfius offers a career-launching **SAP ABAP Internship Program** designed for freshers and professionals who wish to build a career in SAP technical development. Get hands-on training on **real SAP systems**, work on **live ECC/S4 HANA-based projects**, and build job-ready skills with support from experienced SAP consultants.

This is a paid internship with a strong focus on **practical implementation**, **code debugging**, and **real client project exposure**.

Responsibilities

What You Will Learn

- ABAP syntax, modularization, and data dictionary
- Classical & interactive reports, ALV, SmartForms, and BDC
- Enhancements, user exits, BADIs, and customer exits
- Debugging, performance tuning, and code remediation
- Introduction to S/4HANA ABAP (Clean Core Concepts)
- Real project coding under the supervision of experts
- Working with SAP GUI, SE38, SE11, SE80, and standard T-Codes
- Git-based code versioning for real project experience

Internship Highlights

- ? Real-time project exposure
- ?? Server access and SAP login credentials
- ?? Live mentor support + Q&A sessions
- ? Certificate of Completion + Project Experience Letter
- ? Career guidance for jobs, freelancing, and project work
- ? Option to transition to long-term project or placement support*

Ideal For

- Freshers interested in SAP technical roles
- Students looking to enter SAP ecosystem after graduation
- Working professionals switching from support or testing to ABAP
- Freelancers wanting to build SAP service capabilities

Qualifications

- B.Tech, MCA, M.Tech, BCA, or equivalent IT/Engineering background

- Basic understanding of programming (any language)
- No prior SAP experience required
- Must have laptop/PC + internet (for remote participation)

Contacts

Why Choose Techfius ABAP Internship?

- Structured syllabus aligned with SAP job requirements
- Internship designed by SAP-certified developers
- Learn to code in real SAP environments (not just theory)
- Low-cost, high-value entry into the SAP consulting world
- Access to a vibrant tech community for networking
