SAP Fiori Developer

Hiring organization
Techfius Orbit Private Limited

Employment Type
Full-time, Contractor

Date posted
August 19, 2025

Description

We are seeking a dynamic and experienced **SAP Fiori Developer** to join our SAP team. You will be responsible for designing, configuring, and developing SAP Fiori applications – both standard and custom – including deployment to **mobile platforms**.

Job Title: SAP Fiori Developer

? Location: Remote / On-site

? Job Type: Full-time / Contract

? Experience Level: 3–6 Years

Responsibilities

- Configure and activate **standard Fiori apps and tiles** in Fiori Launchpad
- Develop **custom Fiori apps** using SAPUI5 and OData services
- Enable **mobile responsiveness** and performance optimization for Fiori apps
- Integrate Fiori apps with **SAP S/4HANA** and backend workflows
- Troubleshoot app issues, handle debug logs, and work with SAP Gateway
- Work closely with ABAP, BASIS, and functional consultants
- Participate in Fiori project planning, testing, deployment, and documentation

Required Skills:

- Strong experience in **SAP Fiori and SAPUI5 development**
- Expertise in **OData Services**, **REST APIs**, and **SAP Gateway**
- Ability to activate, configure, and troubleshoot **standard Fiori applications**
- Proficiency in **custom tile creation**, Launchpad configuration, and app registration
- Working knowledge of **Fiori for mobile**, Cordova/Kapsel plugins (optional but a plus)
- Experience with **ABAP CDS Views**, annotations, and performance tuning

Qualifications

- Bachelor's degree in Computer Science, Information Systems, or related field
- SAP Fiori Certification (preferred)
- Strong communication and collaboration skills
