## Description

*Job Title:* SAP RAP + EWM Technical Consultant
*Experience:* 8+ Years
*Client:* KPMG
*Work Mode:* 100% Remote
*Employment Type:* Contract / Freelance
*Joining:* Immediate

## Responsibilities

### Job Description

We are looking for an experienced SAP Technical Consultant with strong expertise in SAP RAP (RESTful ABAP Programming Model) and SAP EWM (Extended Warehouse Management) to work on a client engagement with KPMG.

The ideal candidate should have extensive experience in SAP ABAP development, S/4HANA implementations, RAP-based application development, and SAP EWM technical enhancements.

### Key Responsibilities

- Design, develop, and maintain SAP RAP-based applications.
- Develop and enhance managed and unmanaged RAP Business Objects.
- Work with CDS Views, behavior definitions, and OData V2/V4 services.
- Implement SAP EWM technical enhancements, BAdIs, and custom developments.
- Work on RF framework, PPF, warehouse tasks, and warehouse orders.
- Develop and optimize ABAP OO programs and ABAP on HANA solutions.
- Support SAP S/4HANA implementation, integration, and performance optimization.
- Follow SAP clean-core principles and development best practices.
- Collaborate with functional consultants and client stakeholders.

### Mandatory Skills

- 8+ years of SAP ABAP development experience.
- Strong hands-on experience in SAP RAP.
- Experience with managed and unmanaged RAP scenarios.
- Expertise in CDS Views, behavior definitions, and OData V2/V4.
- Strong SAP EWM technical experience.
- Experience with BAdIs, RF framework, PPF, warehouse tasks, and warehouse orders.
- Good knowledge of ABAP OO, ABAP on HANA, and SAP S/4HANA.
- Experience working on implementation or support projects.

### Good to Have

- SAP Fiori Elements.
- SAP BTP and ABAP Cloud.
- SAP S/4HANA clean-core architecture.

### Additional Details

- *Client:* KPMG
- *Work Location:* Remote
- *Experience:* 8+ Years

– *Availability:* Immediate joiners preferred
– *Engagement:* Contract / Freelance
